- Support of the annual Bi+Pride campaign in Germany

### **+** Standing by our allies!

- Replacement of the Transsexual Act by a law which is accepted by the community.
- Prohibition of unrequired medical surgeries of intersex children.

## **Understanding bi+**

Based on the definitions by the Bisexual Research Center (BRC), BiNe – Bisexuelles Netzwerk e. V. and the US-American bi activist Robyn Ochs, we understand bi+ as a community of people who acknowledge the potential of feeling romantically and/or sexually attracted to people of more than one gender, not necessarily at the same time, in the same way or degree.

We reject the concept of binary genders and use + to explicitly include all people who identify themselves as bi-curious, pansexual, queer, omnisexual, polysexual, homo-/heteroflexible, asexual and other non-monosexual labels or decide against labelling their sexual identity at all.

We attempt to unite the community, which uses different labels or non-labels, to create a united voice within the LGBTQIA+ scene and society.
